Further work to façade at Hindon Court – Wednesday 12 April

Dear Resident,

We're writing to let you know that following the completion of work at your building we'll be returning to seal the bricks where the scaffold ties were placed in order to secure the scaffolding. These were found not to be sealed to the required standard, so this is necessary in order to rectify this issue.

The work will only take a few hours and is scheduled to take place on **Wednesday 12 April** immediately following the Easter Bank Holiday. We'll be using abseilers, but this will only affect those apartments which face onto Wilton Road as listed below.

- Level 2 – F1
- Level 3 – F14
- Level 4 – F16
- Level 5 – F26
- Level 6 – F28
- Level 7 – F30
- Level 8 – F35

Abseilers may pass your window so please bear this in mind if you're in your apartment during this work. This will conclude all the work required at Hindon Court regarding the cladding. We apologise for any inconvenience, and we thank you for all your patience and understanding during the project.

We're chasing a copy of the EWS1 and we hope to be in receipt of this soon as we are advised that it is being peer reviewed by the chartered fire engineer. We will write to you further once we have received confirmation advising this has been loaded on to Network Homes website and also the FIA Portal.

Have a wonderful Easter break and should you have any questions please contact BuildingSafetyTeam@networkhomes.org.uk or customer service 0300 373 3000 or customerservice@networkhomes.org.uk Please note that the office will be closed on both Good Friday and Easter Monday, but the telephone number above can still be used in an emergency.

Best wishes

Raj Gandecha,
Head of Resident Management (Building Safety)

A summary of this letter

Additional work to seal brickwork on your building will take place on 12 April.

This will be the last bit of work on the cladding project.

We are still chasing EWS1 forms.
