Access to storage cupboards for fire integrity check

As part of the fire safety works taking place on the external wall of your building, we are also carrying out some fire safety checks in other areas of the building. We need to access to the storage cupboards located under the building. These cupboards play a crucial role in maintaining the fire integrity of the structure, and so we need to inspect them periodically to ensure they meet safety standards.

Get in touch if you rent a cupboard

If you are currently renting or occupying one of these storage cupboards, we kindly request that you inform us as soon as possible. You can contact Resident Liaison Officer Zoe Kyriacou on 07464 922875 or zoe.kyriacou@networkhomes.org.uk. This will allow us to coordinate access and carry out the necessary inspections with minimal disruption to you.

Please note that if we do not receive any response within the next 30 days from the date of this notice, we will proceed with changing the locks to access the cupboards for inspection purposes. This action is essential to ensure the safety of all residents and to comply with regulatory requirements.

We understand the importance of your privacy and security, and we assure you that all inspections will be conducted respectfully and with the utmost care for your belongings.

If you have any questions, please get in touch on customerservice@networkhomes.org.uk.

Thank you for your cooperation and understanding.

Sincerely,

Zoe Kyriacou
Resident Liaison Officer
