

Safety in your building

9 September 2024

Peppermint Heights,
Northwick Road,
Alperton,
HA0

Dear residents,

External wall remediation to begin – webinar on Thursday 19 September, 6pm

I'm pleased to say that we are now in a position to begin the remediation of the external wall system at Peppermint Heights after making an agreement with the contractor McConnell to carry out the work. We will be holding a resident webinar on **Thursday 19 September at 6pm** to go over all the details of the projects and you'll be able to ask us any questions you have.

What will we cover at this webinar?

The webinar will last from 6-7pm and we'll present on the following:

- Introduction to the building safety team and contractor
- The remediation we'll be doing at your building
- The project dates, site plan and layout
- Funding position
- EWS1 form
- Plus a Q&A session.

Webinar joining instructions

We'll be holding this webinar on Microsoft Teams – you don't need a paid account to join, but please give yourself enough time to get set-up before 6pm. You can find joining instructions and the link to join the webinar in the box above.

As before, you will be able to ask us questions through our Q&A function while we give the presentation. If you have any questions now, you can submit them beforehand at the same link above – we can then ensure we have as full an answer as possible to give you at the webinar.

We'll send out a copy of the slides, a recording of the presentation and a 'Guide to the Works' document, which will include all questions asked, within two weeks of the webinar. If you have questions or queries about other matters that aren't related to this project, please get in touch with Network Homes separately, so we can dedicate this time to answering your queries on building safety.

Further support

A reminder

Your building's fire strategy is currently **simultaneous evacuation**, which means you must evacuate if you hear the fire alarm, even if you think it is a false alarm.
